

## **Kennedy's Death. A Conspiracy or not!**

Yet again I have heard it said, that there is no conspiracy around the official account of Kennedy's death. I believe there is. Yes, Oswald fired the first shot that went through Kennedy's shoulder and hit Connally. Or was it Oswald's second shot?

When it became apparent that Kennedy had been shot the President's car sped off. The car behind Kennedy's car with the armed Secret Service agent in it also sped off. The jolt of that sudden acceleration made the Secret Serviceman who was fully armed accidentally pulled the trigger. He was using explosive bullets. Had Oswald been using a gun with explosive bullets, that bullet that went through Kennedy's shoulder would have blown it off. That explosive bullet fired by the Secret Serviceman left a seven inch hole in the back of Kennedy's head. I believe that the Secret Service were the only people using guns with explosive bullets at the time. Anyway, Oswald didn't have time to exchange guns. Had Oswald appeared in court to testify that would have become apparent. Also, some FBI agents took the head of Kennedy away and told the Kennedy family they would give it back to them later. It was never returned to them. Why? Because it would have proved that the guns that Oswald had in his possession weren't those using explosive bullets. The Mafia paid the family of Jack Ruby, a minor Mafia figure, who was dying from cancer, for the shooting of Oswald. This was facilitated by J. Edgar Hoover who had been going to Mafia parties in drag. Source: the ex-wife or widow, of a Mafia member. If you believe that Jack Ruby's statement for the killing of Oswald was, "Because I am a patriot." Well, you can believe that if you want to.

J. Edgar Hoover was having his agents trail Democrats and noting any nightly visits to women, or men for that matter, later saying your secret is safe with us, should any of them cross his path. The Democrats wanted him out of office.

There was a television program around two decades ago, on this account which to me answered all the questions around the killing of President Kennedy. I was surprised that no one took it seriously. It was broadcast after the Secret Service agent who accidentally pulled the trigger had died. It was on a minor channel.

There were also accounts of the smell of gunfire coming from behind a bush close to the road, later claimed to be false. This was from the Secret Serviceman's fire arm when he accidentally fired the fatal shot. Kennedy was killed by friendly fire, so to speak. He was not assassinated.

There were questions that were never answered. Why did Oswald attempt to assassinate Kennedy? Why did Jack Ruby assassinate Oswald? Why did the FBI remove Kennedy's head. Why wasn't it returned to his family? Yes, there was a conspiracy, that is, to cover up the friendly fire incident for reasons given above.

There were other complications in that Kennedy's father went to the Teamsters Union which was headed by the Mafia at the time, if reports are to be believed. He wanted them to support his son's attempt to be nominated for the presidency. They told him that they would support him if he appointed Johnson as his running mate. I don't know if the Mafia had any power over Johnson. Kennedy hated Johnson but had to do what was required of him. Later Johnson had an enquiry led by J. Edgar Hoover to investigate whether or not there was such a thing as organized crime in the United States. His enquiry came to the conclusion that there wasn't. When Kennedy made Robert Kennedy Attorney

General and started to go after the Mafia, the Mafia believed this to be a betrayal.

Johnson also pushed through more social legislation through Congress and the House of Representatives than Kennedy.

PS. I have written this from memory so if I've got a fact wrong you can let me know.

PPS. On 19<sup>th</sup> of January 2025, there was a program on BBC Radio 4 about Robert Kennedy Jr. It was about conspiracies but it also reported that the Palestinian, Sirhan Sirhan had no recollection of his shooting of Robert Kennedy. It was reported that the CIA were experimenting with hypnosis at the time. It is now believed by some that Sirhan Sirhan had been hypnotized to assassinate Robert Kennedy. Is it any wonder that Robert Kennedy Jr. believes in conspiracies after what happened to his father and uncle? Also an extra bullet was found at the assassination scene.

It was also reported that J. Edgar Hoover had been having a relationship with Clive Anderson Tolson, associate director of the FBI, for many years. The Mafia could have disclosed this information at any point to the authorities. The disclosure of that kind of information has caused the downfall of some American politicians.

Yours faithfully,

Terry Miles.
